

Pulsar® VI-PE

The ZERO Pulsar® VI-PE is a high-production, ergonomic blast cabinet designed specifically to enhance productivity and efficiency by offering a safe and comfortable work station for production blast operators. The Pulsar® VI-PE makes long production runs much easier by allowing workers to concentrate on achieving the desired surface treatment rather than on their physical discomfort due to long periods of standing.

# Pulsar® VI-PE Pressure Cabinet Features: *Safetv*

- Door interlock system interrupts blasting when either door is opene
- Optional time-delay door locking system keeps doors locked after blasting stops
- Double-wall, insulated doors, reduce exterior noise
- Industrial-quality lift-off hinges allow easy door removal
- Full-opening doors maximize work chamber capacity and ease loading large parts
- Full-length, neoprene-on-fabric gloves protect operator
- Ceiling light fixture maximizes window view area and offers commanding view of interior

#### **Productivity**

- Unique air logic system maximizes air and media flow for blasting
- ASME-code pressure vessel, 1.0 cu ft capacity, with 1/2" piping
- Industrial-quality, coupled two-braid blast hose and tungsten carbide nozzle
- Reverse-pulse cartridge dust collector evacuates spent media and ensures optimal visibility for blasting; traps 99.7% of dust down to 0.5 micron
- Adjustable chrome latches seal doors tight through years of service

#### Convenience

- Tilt-out window allows tool-free glass changes in minutes
- Easy-to-reach pressure regulator, gauge, and electric switch
- · Built-in air gun allows work piece blow-off inside cabinet

### Clean Peen Deburr Finish Prep Surfaces

## Tungsten Carbide Blast Nozzle

The system comes with a 3/16" orifice a Tungsten Carbide pressure blast nozzle, which consumes 38 cfm of compressed air when blasting at 80 psi. The nozzle's long-wearing properties ensure hundreds of hours of service with glass bead media.

#### **Popular Accessories**

- Air-powered Vertical Lift Doors
- Alox Kit for Use with Harsh Media
- · Dust Collector Auto-pulse Kit
- · HEPA Filter
- · Pass-through Doors
- · Rubber Wall Curtains
- · Steel Media Kit
- · Time-delay Door Locks
- Turntable & Track Assembly

#### **Common Applications**

- Cleaning parts
- Deburring machined parts
- Stripping paint
- Improving surface finish
- Removing carbon build up
- Removing heat scale

#### C **T** F

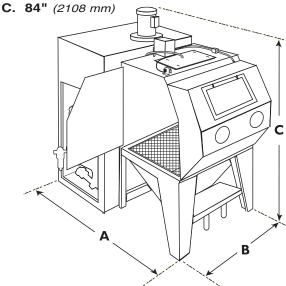

#### **COMPLETE SYSTEM**

Actual space requirements depend on desired work flow. Allow additional work space for operator and maintenance.

ISO 9001:2008 certified.

#### Model Pulsar® VI-PE System Description

Heavy-duty 14-gauge cabinet shell, all-welded construction; 12.5" x 19.5" safety-glass view window; fluorescent lighting with dual 20-watt tubes; heavy-duty industrial-quality adjustable chrome latches; unique air-logic system to maximize efficient use of compressed air, provides optimal media reclamation and dust collection; cabinet-mounted reverse-pulse dust collector with 1 HP motor and 195 square feet of filter area; compressed-air filter; pressure regulator; easily removable dust drum for material disposal; 1.0 cu ft capacity ASME-code pressure vessel.

#### PRESSURE BLAST AIR REQUIREMENTS

| NOZZLE | NOZZLE<br>ORIFICE | CFM at<br>80 PSI | M <sup>3</sup> /Min at<br>5,5 BAR | CFM at<br>100 PSI | M <sup>3</sup> /Min at<br>7 BAR |
|--------|-------------------|------------------|-----------------------------------|-------------------|---------------------------------|

#### **Reclaimer Flow Rate**

Pulsar® VI-PE: Nominal 600 cfm

#### **DUST COLLECTOR**

Reverse-pulse cartridge dust collector (which traps 99.7% of dust down to 0.5 micron) allows non-stop, high-production blasting. The polyestercellulose cartridge is pulse cleaned each time the pedal is pressed and released for maximum filter efficiency. A dust collector auto-pulse kit is available as an option. Worn cartridge can be replaced in minutes.

#### **Filtering Area**

### Pulsar® VI-PE 195 ft<sup>2</sup> (18,1m<sup>2</sup>)

Dust concentration in exhausted air is nominally 5.0 mg/m<sup>3</sup>. For especially dust sensitive work environments, order the optional HEPA filter.
