**We use what we build,  
now you can, too.**

Shot peening in-house? We build and sell affordable CNC robotic shot peening equipment so you can own and operate the same high quality machines used in our state-of-the-art job shops.

### **CNC Robotic Features**

- Computer or CNC control of all aspects of the process
- Process data logging
- Reduced cycle time
- Complicated set-ups are a thing of the past
- Repeatability

### **Visual Shot Peening**

Visual Shot Peening is a machine process and data-logging control system developed by Peening Technologies.

**Visit our website:  
peentech.com**

### **Process Development**

In addition to building machines, we offer complete process development services. This includes tooling design and development, machine programming, process qualification (Almen Strip testing), and process sheet documentation.

### **Supplies**

We also sell shot peening consumables including Almen blocks and strips. Ask us for more information.

Large or small, complex or basic, we can build machines that are tailored to your needs.
