4130

HIGH PRESSURE CLEANER DEGREASER

AEROGREEN is the best way of cleaning metal of oils, dirt, grease, waxes, polishing compounds, salts, soluble oils, cosmoline, drilling and cutting compounds and other surface contaminants from all surfaces.

Directions For Pre-Spray Use

- 1) Dilute AEROGREEN 4130 with water (3:1) 3 parts water to 1 part cleaner.
- 2) Pre-Spray the area to be cleaned by adding AEROGREEN 4130 to a coarse sprayer or low pressure spray before power-washing the area with AEROGREEN and let stand the area.
- 3) Rinse the concrete thoroughly with the power washer.
- 4) Allow to completely dry , especially if a coating is to be applied after cleaning.

Directions for Hot or Cold Pressure Washer

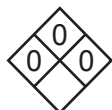

- 1 Wet surface to be cleaned with water
- 2 Apply AEROGREEN based on equipment manufactures directions. A 10% cleaner solutions is the general standard to use.
- 3 Wash surface and rinse surface with pressure washer.

Rust Prevention: For items that have a tendency to rust or is specification requires, use approved rust inhibitor after cleaning.

Oil/Water Separator and/or Pre-treatment Compatability
