Phosphoric Acid	7664-38-2	>5-25%

Composition comments The manufacturer lists no ingredients as hazardous according to OSHA 29 CFR 1910.1200. Composition Data Sheets (CDS) are available upon request identifying all ingredients.

*** As outlined in "The Hazard Communication Standard (HCS) (29 CFR 1910.1200(g)), revised in 2012," states that the chemical name and concentration (i.e. exact percentage) of all ingredients which are ***classified as health hazards*** and are: Present above their cut-off/concentration limits or Present a health risk below the cut-off/concentration limits are to be listed .

4. FIRST AID MEASURES

Inhalation	Remove to fresh air. If breathing has stopped, give artificial respiration. Get medical attention immediately.
Eye Contact	Immediately flush with plenty of water. After 5minutes of flushing, remove contactlenses, if present. Continue flushing for at least 15 more minutes. If irritation persists seek medical attention.
Ingestion	Rinse out mouth and then drink plenty of water. Do not induce vomiting. Immediate medical attention is required.
Skin Contact	Wash thoroughly with soap and water until no traces of the chemical remain. Remove contaminated clothing and shoes. If skin irritation continues, or for blistering or open wounds immediate medical attention is required.

Most Important Symptoms and Effects, both Acute and Delayed Symptoms

May cause skin irritation with redness and swelling.

May cause gastrointestinal perforation

Danger of pulmonary edema

Danger of impaired breathing

Indication of any Immediate Medical Attention and Special Treatment Needed

Note to Physicians Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable Extinguishing Media

Not determined.

Specific Hazards Arising from the Chemical

None known. Cool containers exposed to flames with water until well after the fire is out.

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

Personal Precautions	Avoid contact with skin, eyes. Wear appropriate protective clothing and equipment to prevent contact.
Environmental Precautions	Do not allow into open waterways or ground water systems.
Methods for Containment	Dike spill and prevent spill from entering sewers and waterways. Collect using an inert absorbent material and place in appropriate containers for disposal.
Methods Cleaning Up	Wash spill area with plenty of water. Keep in suitable, closed containers for disposal. Spills and releases may have to be reported to Federal and/or local authorities. See section 15.

7. HANDLING AND STORAGE

Precautions for Safe Handling

Protect container from physical damage. Ensure good ventilation/exhaust in the workplace. Handle in accordance with good industrial hygiene and safety practice.

Storage Conditions

Keep containers tightly closed in a dry, cool and well-ventilated place. Keep out of the reach of children. Do not store in metal containers.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines

Phosphoric Acid TWA: 1 STEL: 3 (mg/m³) from ACGIH (TLV) [United States] TWA: 1 STEL: 3 (mg/m³) from OSHA (PEL) [United States] TWA: 1 STEL: 3 (mg/m³) from NIOSH TWA: 1 STEL: 3 (mg/m³) [Mexico] Consult local authorities for acceptable exposure limits.

Appropriate Engineering Controls

Engineering Controls

Provide natural or mechanical ventilation to control exposure levels below airborne exposure limits. Showers. Eyewash stations.

Individual Protection Measures, such as Personal Protective Equipment

Skin and Body Protection: Butyl rubber or other impervious gloves should be used for prolonged exposure or for dermal sensitive individuals are required.

Eye/Face Protection: Wear approved safety goggles if splashing or spray back is likely.

Respiratory: Use in well ventilated area. Use suitable respiratory protective device in case of insufficient Ventilation. Use suitable respiratory protective device when aerosol or mist is formed.
