

RA-PD Rinse Aid

Spotless surfaces and faster drying times are assured with RA-PD in the final rinse of your plastic or metal parts washing operation. Contains specific water conditioning agents that help suspend minerals and aid air flow in lifting water off of surfaces.

PHYSICAL PROPERTIES

Appearance	Clear Liquid
pH @ 1% solution	7.0
Odor	Mild
Foaming Action	Very Low
Solubility in Water	Complete
Rinsing Action	Excellent
Metal Safety	All Metals
Flash Point	None
Specific Gravity	1.01
Stability	Stable
Standard Container	55 Gallon Drum

Refer to our Safety Data Sheet for Additional information.

USAGE AND DILUTION RECOMMENDATIONS

Usage range varies from 1 to 12 ounces per gallon. Commonly it is used at 5 to 6 ounces per gallon of water. Cleaning solution temperatures should be maintained between 120° and 160° F.

HANDLING AND STORAGE

This product does not pose any fire hazards. Use good industrial hygiene practices. Prolonged contact may be drying to skin, therefore we recommend wearing rubber gloves. In case of skin contact, wash with soap and water, removing contaminated clothing and shoes. Keep product containers tightly closed when not in use. Store in the original container between 45° and 85F. When stored as stated above, shelf life is a minimum of 2 years.

Progress Chemical guarantees its products will perform to your satisfaction when used in accordance to our recommendations. We back this guarantee with over 65 years experience. Our quality management system has been certified to ISO 9001 Quality Standards.
