3. COMPOSITION/INFORMATION ON INGREDIENTS

No hazardous ingredients.

<u>Composition comments the manufacturer lists no ingredients as hazardous according to OSHA 29 CFR</u> <u>1910.1200.</u> Composition Data Sheets (CDS) are available upon request identifying all ingredients.

*** As outlined in "The Hazard Communication Standard (HCS) (29 CFR 1910.1200(g)), revised in 2012," states that the chemical name and concentration (i.e. exact percentage) of all ingredients which are <u>classified as health hazards</u> and are: Present above their cut-off/concentration limits or Present a health risk below the cut-off/concentration limits are to be listed .

4. FIRST AID MEASURES

First Aid Measures		
Inhalation	If adverse effect occurs, move to fresh air	
Eye Contact	Flush with plenty of water. After 5minutes of flushing, remove contact lenses, if present. Continue flushing for at least 10 more minutes. If irritation persists seek medical attention.	
Ingestion	Drink plenty of water to dilute.	
Skin Contact	If adverse effect occurs, rinse skin with water.	
Indication of any Immediate Medical Attention and Special Treatment Needed		
Note to Physicians	This is relatively innocuous substance not expected to cause harm. Should treatment ever	

be required, it would be directed at control of symptoms. 5. FIRE-FIGHTING MEASURES

This formula is stable, non-flammable, and will not burn. No special procedures necessary

Flammability:	Non-flammable
Flash Point:	Non-flammable
Suitable Extinguishing Media:	Use Dry chemical, CO2, water spray or "alcohol" foam.
Extinguishing Media to Avoid	High volume jet water.
Special Exposure Hazards:	In event of fire created carbon oxides, oxides of phosphorus may be formed.
Special Protective Equipment:	Wear positive pressure self-contained breathing apparatus; Wear full protective
	clothing.

Specific Hazards Arising from the Chemical

None known. Cool containers exposed to flames with water until well after the fire is out.

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

Personal Precautions	See Section # 8. Personal Protection: Use personal protective equipment as required.	
Environmental Precautions	Do not allow into open waterways or ground water systems.	
Methods Cleaning Up	Dilute with water and rinse into sanitary sewer system or soak up with inert absorbent material.	

7. HANDLING AND STORAGE

Precautions for Safe Handling

Storage Conditions

Keep containers tightly closed in a dry, cool and well-ventilated place. Keep out of the reach of children.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines	OSHA PEL	ACGIH TLV
	No reportable ingr	edients
Appropriate Engineering Controls		
Engineering Controls	Provide natural or mechanical ventilation	on to control exposure levels below airborne

Individual Protection Measures, such as Personal Protective Equipment

Eye/Face Protection		Wear approved safety goggles if splashing or spray back is likely.
	Skin and Body Protection	Butyl rubber or other impervious gloves should be used for prolonged exposure or for dermal sensitive individuals are required.
	Respiratory	Use in well ventilated area. If occupational exposure limits are exceeded, use NIOSH approved respirator with organic vapor cartridges and dust/mist pre-filter.

exposure limits. Showers. Eyewash stations.

General Hygiene Considerations Handle in accordance with good industrial hygiene and safety practice.
