

# RPB® PX4 AIR® PAPR

## Powered Air Purifying Respirator

The RPB PX4 Air is a robust and versatile Powered Air Purifying Respirator (PAPR) that makes breathing easy so you can focus on the job at hand.

The PX4 has been designed to optimize your safety and increase your productivity through its portability and comfort. Breathing clean air from a PAPR eliminates restrictions of attached airlines, providing flexibility to move around the job as required.

The PX4 Air is ergonomically designed to sit comfortably on your lower back to reduce aching and fatigue throughout the day, to ensure you can enjoy life's best moments.

*Protecting you for life's best moments.*

## Features & Benefits

- Unbeatable comfort - the PX4 Air is ergonomically designed to contour to your lower back. Weighing only 40.5 ounces (1150g) including battery, belt and filters, it is 20% lighter than other professional brands.
- Third fan speed for greater airflow/increased cooling in warmer climates
- LED display shows battery life and fan speed.
- Highly efficient filter cartridge provides maximum filtration.
- Long lasting battery life - up to 10 hours on a single charge.
- Audible and vibrating alarm when flow is below the minimum requirements.
- All parts can be purchased individually for easy maintenance and servicing.

## Applications Include

- Metal fabrication
- Metal cutting/grinding
- Brazing
- Fetting
- Fiber glassing
- Powder coating\*<sup>2</sup>
- Select composite production
- Sanding
- Wood working
- Insulating
- Medical
- Pharmaceutical manufacturing\*<sup>2</sup>

## Safety

- The PX4 Air provides clean breathing air\*<sup>1</sup> to RPB® respirators.

## Recommendations

- Replace pre-filter on PX4 Air daily to enhance the life of the main filter cartridge.

RESPIRATORY PROTECTION  
Only in conjunction with an approved respirator.

\*<sup>1</sup> When used with the correct filter for the application.

\*<sup>2</sup> Non intrinsically safe environments.

### **WARNING** PRODUCT SELECTION

- 1. Determine what type of protection is required for your activity.** As applicable, check your workplace safety program, respiratory protection program, and standards and regulations for your activity or industry.
  - 2. Check product specifications.** Contact RPB or check the product instruction manual (downloadable from [rpb-safety.com](http://rpb-safety.com)) for complete specifications, including approvals, standards, and regulations to which the product conforms.
  - 3. Make sure you have a complete system.** Verify that you have or are purchasing all required components. System requirements are available from RPB or in product instruction manuals.
- Selecting inappropriate or incomplete equipment, including the use of counterfeit or non-RPB parts, can result in inadequate protection and will void the NIOSH approval of the entire respirator.**
